EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In the Claims:

3. Cancel non-elected claims 15-20 it being noted the election of claims 1-14 was made without traverse.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

Straub et al. (U.S. Patents 4,987,940 and 5,127,981) disclose a method of placing a material on a moving web comprising providing a first web having a transverse width in a first upstream zone such that the first web moves at a first web velocity in the positive x direction, providing a first assembly for diverting the first web from the first upstream zone to a first intermediate zone and for diverting the first web from the first intermediate zone to a first downstream zone, and applying the material across at least a portion of the transverse width of the first web in the intermediate zone while translating the first assembly in the positive x direction in a first plane such that the first web in the intermediate zone has a velocity, with respect too the first assembly, which is less than the first web velocity.

Art Unit: 1733

The prior art of record fails to teach or suggest providing a second web and a second assembly in the same manner as the first web taught by Straub et al., periodically overlapping the first assembly and second assembly in an alternating fashion by translating the first assembly and second assembly in a positive x direction in a first plane and a negative x direction in a second plane, and alternately applying the material across at least a portion of the transverse width of the first web in the first intermediate zone and across at least a portion of the transverse width of the second web in the second intermediate zone such that the application of the material to the first web and the second web is continuous.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **John L. Goff** whose telephone number is (571) 272-1216. The examiner can normally be reached on M-F (7:15 AM - 3:45 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on (571) 272-1226. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
